Programme overview

The MSc in Finance and risk management provides you with the skills you need in financial analysis and management to manage companies at a national and international level. It has been designed to equip graduates with the skills that CFOs and finance managers are looking for. You will gain a solid grasp of investment and risk management, business valuation, cash management, and learn how to create and manage a strategic finance plan, create a business plan, manage mergers and acquisitions, prepare financial packages, etc.

You can join the regular track or the short track of the programme.

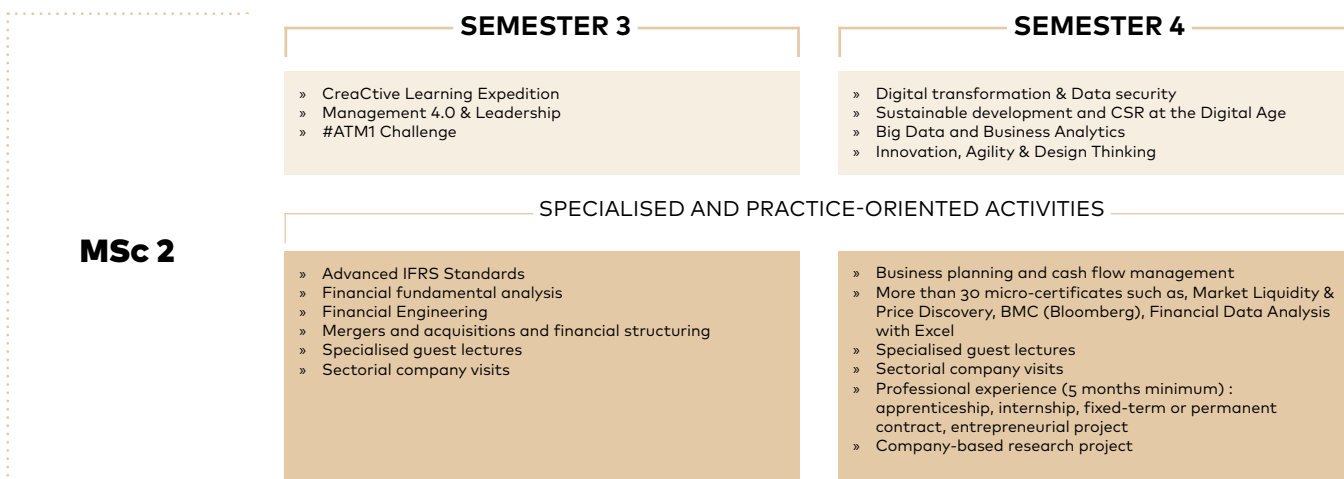

Regular Track

The regular track allows you to enter the first year (MSc 1) of the MSc in Finance and risk management and to follow the 4 semesters of the programme (MSc 1 and MSc 2)

Short Track

The short track allows direct entry into the 2nd year of the programme (MSc 2).

WORK-STUDY FORMAT

Students on the programme can gain industry experience by combining their studies with a part time job. Doing a professional experience during your studies can boost your employability and is an excellent way to develop hard and soft skills that are highly valued by employers.

Our programme is designed around a schedule comprising three days of focused classes and two days of flexibility, allowing time for you to explore part-time job opportunities. At ICN, we regularly organise Networking meetings and Career workshops, equipping you with the essential tools to secure employment either during your academic journey or immediately upon its completion.

CAREER

opportunities

This MSc prepares students for careers in financial management within groups, SMEs, banks, financial organisations and consultancies and more generally in all companies and not-for-profit entities.

"I joined the MANTU group as a management controller in Geneva in 2012, after graduating. I have evolved at the same time as the company has grown (40% annual growth).

Today I am Deputy CFO of the Mantu Group. I didn't have this specific position in mind, but only the desire to evolve and have a continuous learning curve: I wanted to grow at the same time as my company.

ICN was very formative for me because it allowed me to acquire more certainty and self-confidence, in particular thanks to regular group work and oral presentations."
