Where business meets creativity.

“Paris School of Business is a Grande École of Management, accredited by the main international quality agencies (AACSB, EFMD and AMBA) and recognized by the French Ministry of Higher Education and Research for its Bachelor's & Master's programmes.

Beyond these accreditations, which guarantee the quality of its programmes, Paris School of Business is unique in at least two respects.

Its international character:

→ through its permanent faculty: 40% of its core faculty is international;

→ by its students: 34% of our 4,000 students are also international and 134 nationalities live together on our Paris campus;

→ through its international network: more than 150 partners universities on 5 continents enable our students to spend semesters or double degree courses at the best institutions in the world.

This international dimension offers a diversified education of management experience and guarantees the acquisition of intercultural agility skills that are highly sought after by recruiters.

This international uniqueness is combined with another specific feature: since its creation, Paris School of Business has integrated hybrid courses into all its programmes, focusing on themes such as “arts & culture”, “cybersecurity & management”, “technology & management”, “data management” or “hospitality management”.

This cross-disciplinary approach gives our students the global and multi-faceted skills that companies are looking for.

Choosing Paris School of Business means joining a high-quality school of management, recognized as the reference for international hybridization platforms in Paris.”

The Galileo Global Education Group

Paris School of Business is part of the Galileo Global Education group, a world leader in independent higher education. The group brings together 61 schools of excellence in 18 countries around the world in the fields of arts and design, communication, management, digital, law and health.

Where business meets creativity

Success in the business world requires not only a solid understanding of business and management fundamentals, but also the ability to innovate and think creatively.

Thanks to Galileo Global Education's network of prestigious schools of Art, Design, Tech, etc., we are able to offer our students unique programs in which they acquire the business expertise they need to access strategic positions within companies, as well as the behavioral skills they need to manage teams and meet the complex challenges of today's global economy.

Over 3 or 5 years, our post-baccalaureate programs focus on developing management and leadership skills, while encouraging our students to explore their creativity and push back the boundaries of conventional thinking.

Tech for Business

Conscious that future managers need to be equipped with the technological skills required for tomorrow's professions, we have integrated a large number of technological courses applied to the business world into the curriculum of our Grande Ecole and Bachelor programs.

Research

Paris School of Business teaching staff is known for its academic excellence and the quality of its teaching. In the majority full-time faculty and committed to educational reflection, our professors hold doctoral degrees from the best French and English-speaking universities, French elite grande école and/or business schools from other countries. Our tenured professors' research work feeds into daily educational activities and corporate involvement in the curriculum of each program.

■ Internationalization

“Paris School of Business has established a strategy for internationalization to become more globally engaged and connected. This strategy comprises four main activities:

01 Establishing qualified active international partnerships and collaborations including research with international relevance and dynamic faculty mobility.

02 Attracting a diverse group of students from around the world and educating them on leadership, creativity, and management by offering adapted degrees, Study Abroad or Short Programs in a multicultural environment on campus and online.

03 Promoting study abroad opportunities for domestic students including international certificates and double degrees and organizing international challenges that can be conducted remotely.

04 Promoting global citizenship and cultural understanding on campus by organizing cultural events, creating international student organizations, and establishing intercultural communications workshops.”

This represents a total of 50 hours of face-to-face teaching and extracurricular activities to fully discover and live the magic of Paris.

14

Course offer

01 Luxury Brand Management

How to develop management skills for a fashion business plan, analyzing the competition, understanding the structure of a luxury brand and developing selling capacity.

02 Artificial Intelligence (AI) for Business

How to create business intelligence through application and visualization and how to develop AI business projects.

■ Strengths of the program

15

Innovative teaching methods

During your stay in Paris, you will not be seated in a classroom the whole time. At Paris School of Business, we believe teaching should be lively and practice-oriented. That is why we will take you to visit a concept store and startup incubator, attend entrepreneur meet-ups and/or participate in a business challenge, do workshops, etc. We will also invite you to attend extracurricular activities to fully experience Paris.

A short and intensive program

The Summer and Winter Schools are only two weeks long, but this provides enough time for us to teach you what you need to know about our three specializations. It is perfect for you if you don't have the time to do a semester abroad but still want to gain international experience.

Provides a specific knowledge

As the program is very short, we have decided to go straight to the point by providing you with very specific knowledge about luxury, culture and digital business. While you will be immersed in Parisian life, we will pass on to you all our passion and expertise on these topics.

What is included in the program

- | | |
|----------------------------------|---|
| 01 Daily lectures & workshops | 04 Cultural visits: Château de Versailles, Bateaux Mouches, Museums, etc. |
| 02 Housing (single room) | |
| 03 Breakfast & Lunch on weekdays | 05 Integration events |

How to apply?

Requirements

Non-native students must satisfy language proficiency requirements and submit an official test in English or in French depending on the program they choose (French track or English track). If they have been in a 100% English program for at least two years at their university, we also accept an official letter from their university stating that they are in a program taught 100% in English, and their current language level as a proof.

01	English tests + minimum scores	02	French test

Our students' stories

“Last year’s experience at Paris School of Business was amazing. I met a lot of international students and I think that the cosmopolitan nature of the school makes the experience even more special. They always help you when there is a problem, especially Melissa who was always there for everything.

As regards the professors, I especially remember five of them, some of the greatest I have had in my career as a student. Also, a lot of them were international professors, which was a real boost for the content of my studies and classes.”

– Ainara G.L, Spain

“Paris School of Business was just the perfect destination for my exchange semester. I really wanted to choose business-related courses such as Project Management, Branding or International Business. At the same time, living in the heart of Paris for an entire semester to me was just an incredible experience itself. I had a chance to explore the culture, the city’s tremendous heritage, get to know many friendly people and also learn French.”

– Dmitrijs P., Latvia

“I enjoyed my time at PSB last year so much. Classes for Luxury Brand Management at the Paris School of Business consisted of various lectures from professors specializing in their topic. One class focused on the wine & champagne industry where we attempted to figure out wine ingredients by smell. My favorite field trip was to the Musée de Orsay. This museum is famous for the large clock and the hall of Van Gogh paintings.”

– Kelli C., United States of America
